The parade, the event of Inauguration Day, after the swearing in of the President and Vice President, was the biggest kind of a success yesterday. Forty thousand men were in line. They marched superbly, despite the cheerless weather, and won applause all along the route. The spectators were jubilant, too, and cheered the President and his wife, the military organizations and the civic clubs.

WASHINGTON, March 4-With wonderful patience the expectant spectators waited for the procession while the inauguration ceremonies were in progress. The rain had abated somewhat, and taken the worse form of a fine driving mist. It trickled from thousands of umbrellas and ran in rivulets down the backs of the unfortunates who did not possess these useful implements. Despite all of the untoward surroundings, the crowd preserved its good humor and passed the long interval in flinging jokes and jibes at self-important and isolated members of the parading organizations, who were hurrying along in undignified haste to join

Finally the heed of the great procession turned into Pennsylvania avenue on its march to the White House, and interest ceased in all else. Forty-eight years ago William Henry Harrison on his white horse headed a procession of 4,000 paraders on the same route. At that day Admiral Porter (then a lieutenant) said that it was the finest pageant in the world. To-day probably 40,000 men were in line to honor the graudson, many of them coming from sections of the country which in 1841 were trackless areas of uninhabited territory.

The elements warred upon them, but they held their own bravely. Looking eastward from the Treasury, with the Capitol forming a hazy yet stately background, the sight was inspiring. The broad expanse of the avenue

glistened beneath the dull sky. Like grant covered the sidewalks. The crowds strained against the confining cable but the wire held firmly and the avenue was kept clear for the

LIKE A MIGHTY RIVER.

General Beaver rode in advance, and his head was uncovered a great part of the time in acknowledgment of the greeting of the great multitude. The long line of troops and militia and civilians with banners and guidons flying in the northern wind completely filled the vision. In its marching step, varying with the time of the numerous bands of music, it seemed to roll like the billows of the sea and always onward. Over all was heard a continuous roar made up of the voices of thousands and thouands of spectators as they cheered the Presidental party or greeted some particularly fine-looking body of troops. When the head of the procession reached the Treasury, a halt was called, and the Presidental party in its two carriages turned off and drove rapidly to the White

The stand at this time was filled, with the exception of the seats reserved for the President's party. When the President and Vice President took their places at the front of the stand they were at once recog-nized by the crowd gathered beneath them and a mighty shout rent the air. General Schofield and his staff occupied seats to the right of the President and a number of naval officers had seats on the left. General Sherman occupied a conspicous seat and many diplomats and promi nent officials with their fami-files were scattered in the throng. The review began immediately after Pres dent's arrival, and indeed was a beautiful etacle despite the adverse surroundings. eral Besver, Chief Marshal, headed the line with General Hastings as Chief of Staff, followed by a great number of sids. As they approached the stand they bared heir heads and gave the Presidenta marching salute. The President and Mr. Morton returned the compliment by removing their hats. At the same time the band played "Hail to the Chief" and the crowd cheered

It was commanded by Major General John F Hartranft, and, as usual, when the Guard has appeared at the capital, it created a sensation. The perfect alignment of the marching columns as they passed the President's stand, the soldierly bearing of the men and their "ready for any emergency" equip-ment, called forth from the great crowd cheer after cheer of admiration.

When the last of the participants had passed the stand, President Harrison, with passed the stand, President Harrison, with his son Russell grasping an umbrella, walked rapidly to the White House, followed by Vice President Morton, and the party passed within the open portals out of which beamed a generous promise of warmth and light after the fatigues of the day.

building in the city that was devoid of decorations to-day. An American flag, however, floated from the staff on the roof.

The only full regiment in the Third Brigade was the famous Seventh of New York, which, as heretofore, was received with tremendous cheering. As company after company passed by, in perfect alignment, the great crowd was almost beside itself with enthusiasm.

The fourth Brigade was composed of unattached companies of infantry, the National Rifles of Washington agency.

The position toe Governor has taken has

caused the majority of the Legislature to seek retaliatory measures, and to-day a bill was passed by the House repealing the statutory appropriations and making it a penal offense for the Treasurer of State to pay out any money except to the benevolent institutions, unless it has been specifically appropriated. The plan seems to be to refuse to pass the general appropriation bill, and thus deprive the Governor, the State officers, the Supreme Judges, Circuit Judges and prosecuting attorneys of their

alaries for two years. It is also positive that the appropriations are to be denied for the purpose of compelling the Governor to call an extra session of the Legislature. The Governor stated emphatically this evening that there would be no extra session. The minority members attempted to call up the general and defi-ciency appropriation bill to-day, but the majority would not permit it. Both Houses to-day passed over the Governor's veto the bill depriving the newly elected reporters of the Supreme Court, Republicans, of all

had a debate last night on the Constitutional amendment question. The audience of 150 persons was made up mainly of Irishmen, and judging by the applause of each faction, the friends of the movement seemed to be in the majority.

J. B. McCally presided. He introduced the subject with a speech that many persons sized up as against the amendment. When the question was ready for argument, T. W. McClelland opened for the affirmative. He is a smooth-faced young man, but had a habit of combing his chin in the most had a habit of combing his chin in the most approved stump-speaker style when it was necessary to refer to a desk where his notes lay. He told all about the atrocious evils of whisky drinking, dwelling upon them with a blood-curdling vividness. Financially, he proved the liquor traffic to be the country's curse, \$78,000,000 having been spent for liquor in the country is the country in the country is curse, \$78,000,000 having been spent for liquor in the country is curse, and only \$76. By pursuing the line of action which the legislative has adopted it may take into its own hands at any moment the election of the thousands of offices of the State. It may take directly from the people their rights as well as from the Governor. If the logic of its action be followed to its natural conclusion the State will become purely an oligarchy, and the Constitution, under which the Government nominally operates, may as well be surrendered.

The registront to Governor has taken has all liquor-drinking countries. Mr. Miller Germany, and other powerful nations, are all liquor-drinking countries. Mr. Miller read from THE DISPATCH'S recent inter view with Ex-Chief Justice Gordon, at Br ville, to show that local option would be a better temperance law for Pennsylvania than absolute prohibition. He tried to

prove that prohibition does not prohibit in Kansas or Iown. William A. Carney, who made the second speech for the affirmative, also read from THE DISPATCH'S interview with merchants in Indiana, Pa., to show that pro-hibition there had resulted in wives having more money to buy groceries, boots and shoes, drygoods, etc., than they had before prohibition. Mr. Carney gave facts about the national and international medical associations tracing the heavy rate of mortality and sickness to alcoholic drinks.

Thomas Grundy, a gray-haired man who is prominent in the Liberal League, did battle for the negative side, arguing that if it was simply to maintain personal liberty that people should vote against the amend-ment; and that, he said, is a dear principle to Americans.

Mr. McClelland, for the affirmative, submitted figures to prove that prohibition does prohibit in the West. The other advocate of the amendment said a saloon keeper has no right to interfere with the personal liberty of his neighbor.

Some of Captain Crawford's company of the Fifteenth Regiment, who had been in the regular army and seen Lo, the poor In-dian, at home, organized a war dance around their stacked arms and soon had a large and interested audience. The officers, staff and line looked on, applauded and encouraged the amusements in progress, knowing it was necessary in some way to keep the blood of the soldier boys from stag-nating. It was only when the fun became too boisterous or when some of the boys carried the joke too far in attempts to make passing colored citizens dance that the curb

was put on.

From the Second Brigade the fun spread to the Third on an adjoining street, and from there to the First, so that for more than

an hour the whole National Guard of Pennsylvania turned three streets of the national capital into a play ground, although a very wet one. After a time the boys wearied of this and became quiet. As the descending moisture chilled them, bottles containing ardent spirits began to circulate. The cers winked at it for s

time, and even indulged Governor Foraker privately among themselves. One captain even purchased a quantity of whisky and passed it very quietly from man to man, with the remark that he feared the National much against its will to go wet on the prohi-

MARCHED LIKE OLD SOLDIERS The regimental commanders soon saw that while a little of this might be well enough, much of it would not do, and the thing was to check it and keep the men in good condition by exercising them in company and battalion drill. This was kept up until word came that the head of the division was moving, when every man got into his place, and at 2:30 began to step out briskly in the wake of Chief Marshal Beaver, his aids and the brand new President of the

United States.

Every regiment in the brigade marched as accurately as the regular troops which formed the right of the parade. The one particular difference to be noticed between the Pennsylvanians and Uncle Sam's boys

is the evident care taken by the former to have every movement accurate in manner and time, while the latter act as though every motion were a part of their every-day life, as it is. The regiment of the Second Brigade, N. G. P., wheeled as accurately as the regular troops, but here more than anywhere else it was apparent that our own boys were trying to do what they almost without exception succeeded in doing, while the regulars went through the movement with the careless manner of men who did it because they couldn't help it. Bravely Face the Inclement Weather,

PITTSBURG GETS THERE.

Besides the regular militia, Pittsburg was represented in the military parade in the Third Division by the Washington Light Infantry in their blue uniforms and big black shakers. More attractive to the public than they, however, was the Pittsburg Midget Band, which marched before them in gray uniforms, playing patriotic airs with a vim that won them frequent applause along the line of march.

Philadelphia carried off the honors from the rest of the State of Pennsylvania, in the civic portion of the procession, but the Americus Club, of Pittsburg, was conspicuous above all others save the Lincoln Club, of Cincinnati, which was the escort to the Marshal of the Civic Division by being the escort of the Marshal of the First Brigade of the division. They were one of the handsomest bodies of men in the whole line. The Americus Club didn't get a chance to march for about an hour after the Pittsburg military had begun its long tramp, but it stepped out proudly and briskly in the parade with Harry Paul in command.

The Pennsylvania troops began leaving for home to-night. The Eastern regiments made the first break. To-morrow morning the Pittsburg regiments will begin their journey toward home.

is a large number of baseball reporters present to attend an adjourned session of the Scorers' Association.

Messra Byrne, Schmelz and Krauthoff, Committee on Codification and Revision of Constitution, have been in session all day and evening getting their report ready to be submitted to the meeting to-morrow. A number of rules were adopted at the St. Louis meeting which the committee is codifying and putting in shape. The committee has nothing to give out until the report is submitted to the association. Mr. Byrne will not present a plan for classifying players in the Association at this meeting. He thinks that the League plan had better oe given a fair trial, and if proven successful then it would be thought of and acted upon by the Association. He does not venture an opinion, however, as to the adaptability of the League plan, preferring to await the result of the trial.

Mr. Speas says he will ask the convention to consider his plan to incorporate the American Association with eight clubs, with sufficient capital invested to make the pool self-sustaining, and to make money for each of the eight clubs beside, when they have individually given evidence of supporting themselves. In case of failure, the franchise is to be placed by the association directory at its discretion, with eight directors. Each club will have a local directory of three members. The plan is in sympathy with the Richter millenium plan, except that it eliminates minor leagues and their proposed idea of husbanding players. The president of the association, will be president of each club, and no club shall have original stockholders as its officers. Each club will present a list of names of its players to the general directory, and that body, without assistance or advice of the club so turning in the list, will determine the value of each player. Stock will be issued to each club upon a basis of the club's earning capacity.

The plan, Mr. Speas thinks, would do away with the annual wranging of clubs as to

be taken on either.

when everything is settled I think we'll be
all right. It really is idle talk for any man in
our position to say anything definite on these
questions if he has any respect for himself as a

The inauguration shoot of the Herron Hill Gun Club was not the success expected yesterday. The weather was bad and that interfered with all the bright prospects. There was only one match, and despite the weather there was excellent shooting. Messrs. E. E. Shaner and excellent shooting. Messrs, E. E. Shaher and Painter did not compete. The first four of the contest, which was a sweepstake of \$5 each, with 11 entries, were: Q. A. McClure, \$4 out of a possible 100: Charles Richardson, \$3; F. F. Davison, \$2; George Snyder, \$1.
